LIQUID BREAD. AN ABSOLUTELY PURE EXTRACT OF

MALT.

A VALUABLE TONIC AND REMEDIAL INDORSED AND RECOMMENDED BY THE ENTIRE MEDICAL PRATERNITY.

Of all medicinal preparations that have been put upon the market in recent years, the extract of malt has proved itself and of the most valuable as a tonic or remedial beverage. It has received the unqualified recognition and support of physicians, and is freely prescribed by them to many cases, especially where the nervous or physical systems have been impaired by disease or overork. The house of "DAVID NICHOLSON," of this city, has recently introduced a pure malt extract of high character, made at their request and under their suggestions by Mr. Adolphus Busch, and which is popularly known as "NICH-OLSON'S LIQUID BICKAD," from its life giving and health-restoring properties. A sample sub-mitted to Dr. F. L. James was made the subject

"W. F. COULT B. Esq., National Droggist-Dear Sir: Having submitted the Nicholson malt extract to examination, is requested, I take pleasure in reporting that I find it to be all that the pro-prietors claim for it. The results, as shown in the following summary, are necessarily only approximate, but are sufficiently accurate for all practical "The specimens submitted consisted of un effervescing fluid, dark brown by direct and of a deep ruby color by transmitted light, resembling in general appearance and behavior a very supemuch milder and more pleasant than porter, be ing somewhat sweeter than beer, the sweetness nasked and covered by a very pleasant bitter, derived evidently from hops. The specific gravity of a sample fresh f om the bottle is 1.022 plus.

of a chemical analysis by him, and the result of

his investigations are given in the appended cer-

Amount of extractive matter in 50 cubic centi-metres of the fluid is 3.96 grammes, or about 8 per ent. Amount of alcohol, per cent. la 2.84 plus. The extractive matter is apparently identical with the "extraction maltis" of Trommer, or of the German Pharmacopoela. It consists almost en-tirely of malt sugar, dextrine, being free from fatty acids, etc. The fluid contains a very large amount of diastase, as shown by the fact that it easily liquedles an equal bulk of gelatinous starch. This fact, its low percentage of alcohol, its effer-vescence, its delightful taste and odor, all combine to recommend Nicholson's malt extract as being a most nourishing beverage, and the best article

of the sort that has ever come under my examination. Respectfully, "FRANK L. JAMES, Ph. D., M. D."
